Watch a likely hit movie or television serial of tomorrow being shot at the location and get a feel of the film and the television industry. You may see one of the popular television or film stars and perhaps have a glimpse of the super star Amitab Bacchan, rated the most popular film star in the world by a BBC survey, whose statue is on display at the 'Madam Tussads' wax museum in London. There might be some small time actor also.

PLANNING YOUR HOLIDAY

First time visitor

Our brochure tours are designed for both first time visitor and experienced travellers. We have designed a superb range of itineraries throughout the sub continent after careful research. Usually the first time visitor tends to visit North India 'Golden Triangle' (Delhi, Agra-Taj Mahal and Jaipur) for a shorter duration. For a longer duration combining the Golden Triangle with a visit to the desert state of Rajasthan taking in a game reserve or a visit to the Ganges. Relax at the end on the sun kissed beaches of Goa or in the tranquil mountains of Simla.

In South India, Kerala is an extremely popular destination for its natural beauty. Its waterways, tea and spice gardens, wildlife parks and the beautiful beaches with convenient extensions to the temple cities of Trichy, Tanjore and Madurai in the neighboring state of Tamil Nadu and Karnatka with its palaces, historical sites and the rich flora and fauna in its game parks.

Make your own tour

You may take these itineraries as they are, combine with others or create your own programme including hotels and places not featured in this brochure. Travel in a private chauffeur driven car with a private guide in each destination. Choose your preferred airline, should you have one, and select the date of departure and return that suites you.

Accommodation

Hotels in the sub continent range from deluxe world class hotels, old palaces and heritage properties to more modest accommodation. The hotels are an important aspect of your holiday

and from the wide range available we will help you choose the hotels best suited to you. We use comfortable hotels with character, personalized service and good standard of hygiene. For the brochure itineraries we have used first class hotels or the best available in some of the smaller cities and towns. Most hotels used have air conditioning, modern en suite facilities including the lodges and tents in the game parks.

Special occasions

If you have a special request for any special occasion, please ask at the time of booking and we will be pleased to arrange this for you. Our experienced travel consultants will be pleased to suggest and arrange the most appropriate programme to suit your interests and budget, should you choose one of our brochure itineraries, tailor made to your own requirements or even wish to travel to a part of the sub continent that is not featured in this brochure.

When to book

It is advisable to book your travel arrangements as far in advance of your travel date, in order to help us secure your arrangements. During Christmas and the New Year period, the hotels and the airline seats are in great demand and tend to be booked many months in advance. Occasionally, if the bookings are made at a short notice, the hotels specified in the brochure may not be available. In this case we book alternative hotels of the similar standard.

How to book

You may choose a holiday in the brochure as it is or formulate your own ideas to suit your needs. Our expert travel consultants will be happy to

discuss your travel arrangements and offer any help and assistance to finalize the itinerary. Our call centre is open 24 hours / seven days a week. Based on your specific needs together with our suggestions and recommendations, we will send you the quotation. After agreeing the itinerary and price, please send the booking form together with the appropriate deposit. We will start booking your arrangements and confirm to you in writing.

Getting there - International Flights

With the opening of aviation sector in India, several airlines operate to India with more gateway cities. The International travel can be on direct or indirect flights. The direct flights do not require change of plane and may or may not be non-stop. The indirect flights require change of plane en route. The flying time with direct flights to Mumbai and Delhi is around 9 hours. Direct flight to Chennai and Kolkatta take about 10 hours. The journey time to Mumbai and Delhi with indirect flights is between 12-15 hours, depending upon the carrier, including the transit time, and slightly longer to South India. Direct flight to Colombo takes around 11 hours.

In India it is possible to arrive in one Gateway City and depart from another with the same carrier. For Nepal there are regular direct and indirect flights from London, Delhi and Kolkatta.

We can assist you in arranging your flights to the Sub Continent from any UK airport. In addition to being one of the UK's leading independent tour operators, we are also one of the largest specialist flight companies offering very competitive prices. We have number of arrangements with many leading airlines for reduced and special fares in economy, business and first class.

Stopovers

Where airline routing permits, we offer stopovers. Some middle east carriers allow you to break the journey in Abu Dhabi and Dubai on your return from the Sub Continent. This allows you to enjoy a desert safari, crystal clear beaches and the shopping opportunity in this Gulf State.

Internal flights

For long distance travel within India, for reasons of time and convenience, we use domestic airlines. All internal flights within India are non smoking and alcohol is not served. In flight catering is complimentary.

Ambassador Car

Road travel

Travelling by road is both exciting and rewarding as you pass through bazaars and small villages and get the better feel of the country. We normally use Ambassador cars, ideal for the local conditions and accommodates three persons plus driver. For a party of more than 3 persons we use bigger cars, Toyota Qualis, that comfortably accommodates 5 persons plus driver. For larger parties we use small coaches with a seating arrangement for 12 to 18 people.

Air-conditioned vehicles are used between mid April and October. However, in the winter months and during summer in the hills, non air conditioned

transport is used. Our experienced drivers are well trained to drive safely and are well versed with the local conditions. They speak reasonable English.

Train travel

The Indian Railways is the second largest railway system in the world. Millions of people travel by train every day. Railway platforms look like mini-bazaars. Train travel can be enormously enjoyable and a fascinating way of seeing real India. It offers you an opportunity to communicate with the local people. However, the comfort levels can vary. Today, it also offers diverse tourist routes, magnificent hotels on wheels with five-star services – Palace on Wheels and Deccan Odyssey. India also has narrow gauge steam engine trains popularly known as 'Toy Train' running in Himachal Pradesh in North India, Darjeeling in East India and Ooty in South India. A ride on 'Toy Train' can be enjoyable and can be incorporated in your itinerary. Please ask at the time of booking.

For day journeys we use air conditioned chair car (AC Chair Car). The carriage is air conditioned with individual reclining seats. Some trains do not have chair cars. In that case you travel in normal AC sleeper class. For overnight and long journeys air conditioned sleeper class (AC sleeper) is used. AC sleeper class offers cushioned berths and linen is provided during nighttime. During daytime sleeper gets converted into cushioned bench seats.
